Dear reader,

We are glad to present you the 3<sup>rd</sup> edition of the South East European Law School Network (SEELS) quarterly Newsletter which will be, we believe, an informative and useful read. It has already become a regular publication of the Centre for SEELS and we hope it represents a useful informational tool. We are primarily focused on sharing the information on our work within the SEELS network, but the dissemination of these publications goes wider informing the interested public of our activities, current projects, goals, future plans, successes and experiences.

SEELS, as a network, is dedicated to creating synergies and fostering excellence in science and education through fostering and enhancing the regional collaboration. It is comprised of the 12 law faculties from the University of Tirana, University of Sarajevo, University of Zenica, University “Džemal Bijedić” of Mostar, University Zagreb, University of Split, “Jossip Juraj Strossmayer” University of Osijek, University of Rijeka, “Ss. Cyril and Methodius” University in Skopje, University of Montenegro, University of Belgrade and University of Nis. As a network representing approximately 1,150 teachers and researchers as well as 41,000 students, it works on the development and introduction of new joint programmes and activities in the area of education, further professional training, and on research and publishing in the field of law. In this manner the SEELS members are able to offer attractive and specialised courses and programmes and thereby facilitate regional mobility of scientists, students, researchers and lawyers.

Our permanent goal and strong belief is that the knowledge should be multiplied and communicated and that only through informing and involving the widest of academic audience possible we can truly reach our goals and develop. On that note we would like to leave you with the content of this SEELS quarterly Newsletter covering the period June to October 2016.

## SEE | EU LAW NET- GRADUATES4ACADEMIA – SUMMER SCHOOL “CHALLENGES OF MIGRATION AND ASYLUM – LEGAL ASPECTS”

The SEELS Network and Europa-Institut, Saarland University have a well-established collaboration. This can be seen from the partnership within the SEE | EU Cluster of Excellence in European and International Law, but also from the joint organizations of four Summer School, with the support of the German Academic Exchange Service – DAAD.

The latest Summer School was entitled “Challenges of Migration and Asylum – Legal Aspects” and it took place in Ohrid, Republic of Macedonia during the month of September 2016. It was attended by 25 students coming from the members of SEELS and Europa-Institut. The Summer School was indeed comprehensive, up to date and successful as it was addressing topics that are of great significance from both theoretical and practical point of view. Namely the programme was composed both of lectures carried out by academics which covered the theoretic aspects of the topic, but also of presentations of the selected practitioners (UNHCR Representative in Skopje, representative of the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Office in Skopje, and various NGOs) who gave the deeper insight to the practical aspects of these issues.

It is our sincere hope that the expectations of the students and all of the other participants were met, and that more Schools of this sort are yet to take place.
